ShaSa Samui

Getting There

Your stay with Shasa Samui begins with a scenic trip through the idyllic landscape to Laem Set in the south of Samui. Nestled among pristine nature, Shasa enjoys the exclusive benefits of seclusion and calmer water than the busy beaches of nearby Lamai and Chaweng.

Get Pampered

Complemented with traditional Thai hospitality and the locally produced Dermalogica spa products, our spa offers a refined experience of Thai and other Asian therapies.

Kids Club

We know that kids don't always like the same things as their parents. The Kids Club gives them a place to do some of the things they enjoy.

There are fun and educational art classes that teach batik painting and other crafts. They can browse through a library of books for children of all ages, and in several languages. The kids can keep entertained with an array of the latest video games or select from a generous collection of cartoons. Let them build anything they can imagine with the largest collection of LEGO bricks on the island. Friendly childcare services are readily available.

- Babysitting service
- Batik & rock painting class
- Children literature
- Children DVDs
- Nintendo Wii games
- Sony Play Station 3
- LEGO emporium

- Top spa services and products
- Sauna

Follow the True Taste

Beyond the Sea, the Siamese Brasserie, always welcomes you with the sense of familiarity and inviting atmosphere. Traditional Thai cuisine presented with a genteel Western aesthetic can be enjoyed at any time of day. Each dish is prepared in a genuine style to deliver a flawless experience. In the early afternoon the air is filled with the rich aromas of coffee. These give way to clinks of plates and glasses as the restaurant goes into full swing for the evening. Once the sun falls below the horizon into the night, you can share a great conversation with old friends while relishing a drink from our premium list at the vintage bar.

Follow the true taste to the only authentic 'Thai Tapas' on Samui Island.
